U.S. Army Signs \$1.1M Contract with Time Warner Telecom for Voice and Data Services at Fort Bragg

FAYETTEVILLE, NC – November 3, 2006 - Time Warner Telecom (NASDAQ: TWTC), a leading provider of managed voice and data networking solutions for businesses, today announced the successful installation of voice, data and Internet services at Fort Bragg in Fayetteville, North Carolina.

Time Warner Telecom provides advanced communications services to more than 70 civilian and military installations throughout the U.S., including Army, Navy and Air Force bases and as well as the Department of Justice, Veterans Administration and General Services Administration.

Time Warner Telecom is providing 40,000 direct dial numbers and advanced voice and data services to Fort Bragg. The contract for services is valued at \$1.1 million. Time Warner Telecom currently delivers advanced voice and data services to Pope Air Force Base, which is located adjacent to Fort Bragg.

“As the U.S. military continues to expand and update its communications capabilities, we are pleased to be selected to support their mission,” said Jim Johnson, senior director for Federal Government at Time Warner Telecom. “This installation at Fort Bragg supports the Army’s 82nd Airborne division and all the men and women who serve on this base. Our network delivers highly advanced and fail-safe communication services that support the mission-critical objectives of the United States Army.”
