

On April 24, 2008 the CPUC issued **D.08-04-058** splitting the 760 and creating the 442 area code to accommodate the growing demand for new wireline, wireless and fax telephone numbers. In the proposed petition, the western portion of the 760, northern San Diego County, will have the new area code 442. The area in the eastern portion, Imperial, Riverside, San Bernardino, Inyo counties and portions of Kern and Mono counties will remain 760.

The Public Utilities Commission of the state of California will take additional public comment to evaluate this petition and will modify filing requirements to allow the written record to be completed by September 5, 2008.

The Commission will hold Public Participation Hearings as follows:
