Issue Date: July 1, 2008

Effective Date: July 1, 2008

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS, (CONT'D.)

1.0 DEFINITIONS, (Cont'd.)

Station: The term "station" denotes the network control signaling unit and any other equipment provided at the customer's premises which enables a Customer to establish communications connections and to effect communications through such connections.

Station-to-Station: Two Point Service is that service where the person originating the call from other than a public or semipublic coin telephone dials the telephone number desired and the call is completed without the assistance of a Company operator and the call is not billed to a number other than the originating number.

Subscriber - The person, firm, Customer, corporation or other entity that arranges for the Carrier to provide, discontinue or rearrange telecommunications services on behalf of itself or others under the provisions and terms of this pricing guide.

Switched Services - Services provided to Customers that utilize Time Warner switching equipment or Access Service for the origination of interLATA toll calls.

Switchless Services - Services provided to Customers that utilize another carrier's switching equipment or Access Service for the origination of interLATA toll calls.

Terminating Direct: An 8XX service whereby traffic is terminated to the customer location via a company owned or leased dedicated circuit.

VersiPak: Service offered by the Company that allows the grouping of rate components to meet a Customer's specific needs.

Issue Date: July 1, 2008

Effective Date: July 1, 2008

SECTION 2 - GENERAL REGULATIONS, (CONT'D.)

2.1 Payment Arrangements

2.1.1 Payment for Service

All telephone companies are subject to the Public Utilities Commission of Ohio's rules for minimum telephone service standards ("MTSS") found in Chapter 4901:1-5 of the Administrative Code. Telephone company tariffs should inform customers that they have certain rights and responsibilities under the MTSS and that these safeguards can be found in the appendix to rule 4901:1-5-03 of the Ohio Administrative Code. These rights and responsibilities include complaint handling, ordering or changing service, service repair, payment of bills, and disconnection and reconnection of service

A. Taxes and Surcharges

The Customer is responsible for the payment of all state, local and E911 taxes, surcharges, utility fees, or other fees for which the End User is directly responsible and that may be levied by a governing body or bodies in conjunction with or as a result of a service furnished under a tariff on file with the Public Utilities Commission of Ohio. These charges may appear as separate line items on the Customer's bill, as opposed to being included in the rates contained in a tariff. Any such line item charges will be reflected in the company's tariff. The Company shall not assess separately any taxes, fees or surcharges, other than government-approved sales taxes imposed directly on the end users without seeking Commission approval under the appropriate local competition procedures required by Commission. The Company shall comply with Commission procedures by sending notices to all Customers informing them of the new line item charges.

Issue Date: July 1, 2008

Effective Date: July 1, 2008

SECTION 2 - GENERAL REGULATIONS, (CONT'D.)

2.2 Negotiated Rates and Competitive Discounts

Customized service packages at Negotiated Rates or Competitive Discounts may be furnished on a case-by-case basis in response to request by Customers of the Company for proposals or for competitive bids. Service offered under this pricing guide provision will be provided to Customers pursuant to contract.

Competitive Discounts are available to Customer purchasing services with a contract period of 24 months or greater. Competitive Discounts shall not exceed 30%.

Unless otherwise specified, the regulations for such arrangements are in addition to the applicable regulations and prices in other sections of this Pricing guide. Specialized rates or charges will be made available to similarly-situated Customers on a nondiscriminatory basis. The Company will consider the following factors when establishing special pricing arrangements: (1) the LATA in which the Customer is located; (2) the horizontal and vertical distance from the central office to the Customer's premises; (3) the availability and location of the network facilities; (4) the type of service; (5) the price of the service; (6) the number of lines (circuits) being used; and (7) the length of the contract terms.

Issue Date: July 1, 2008

Effective Date: July 1, 2008

SECTION 3 - SERVICE DESCRIPTIONS AND RATES

3.1 InterLATA Calling Service

3.1.1 General Description

InterLATA Calling Service is an InterLATA long distance service that is usage rated and billed in six (6) second increments.

Service is available only in conjunction with the Customer's subscription to the Company's local exchange services. For Customers subscribing to the Company's local exchange services, service is available on a Switchless basis or provisioned on a Dedicated Long Distance facility. If the Customer discontinues services with the Company such that the only remaining service is Switchless and/or Dedicated Long Distance Services, the Company reserves the right to discontinue the Switchless and/or Dedicated Long Distance Services upon providing the Customer a 30-day advance notice of disconnection. The Company may waive the Local Exchange Service requirement for Dedicated Long Distance facility on an individual case basis.

This Service is available to Customers that subscribe to the Company's local exchange services in a minimum of one location. Customers that meet the minimum requirement may also purchase services at locations where they do not subscribe to the Company's local exchange services and/or subscribe to a dedicated on-net direct dial service over the Company's carrier's digital network utilizing a DS-1 connection between the Company's switch and the carrier's nearest hub. All off-net services will be handled on a contractual basis only.

3.1.2 Timing of Calls

Long distance usage charges are based on actual usage. Chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when either party "hangs up" thereby releasing the network connection. If the called station hangs up, but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network. Chargeable time does not include time lost because of faults or defects in the connection.

The minimum call duration and rounding of calls for measurement and billing purposes is six seconds. The duration of each call will be rounded off to the nearest higher increment for billing purposes. Fractional cents will be rounded to the next higher cent.

Issue Date: July 1, 2008

Effective Date: July 1, 2008

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.1 InterLATA Calling Service (Cont'd.)

3.1.3 Terms of Service

The rates for TIGR InterLATA Calling Service are based on volume and established one (1) year two (2) year, or three (3) year term contracts for the Company's business Customers. The rates are further segregated between switched and switchless type service. Switchless service may be offered in a package with other services or by itself at a rate or discount offered on a contractual basis for services not generally available under this pricing guide. Rates will be offered to the Customer in writing and on a non-discriminatory basis. Contracts resulting from a special request will be submitted for approval and filed with the Commission. Upon expiration of a term contract, the service term will automatically renew at the same terms and conditions for successive one (1) month terms unless either party notifies the other thirty (30) days prior to the expiration of the then current term that it wishes to terminate the service.

Note: Off-net provisioning will require additional mileage and/or back haul charges to be added.

SECTION 3 - SERVICE DESCRIPTION, (CONT'D.)

3.2 Calling Card Service

3.2.1 General Description

Calling Card Service is provided to Customers for use when away from their established locations. The Company will issue to Customers Company Calling Cards which will allow Customers to place telephone calls and to re-originate calls, a feature which allows a Customer to place a new call without hanging-up and re-dialing the 8XX access number. Access to the service is gained by dialing a Company-designated toll free access number (i.e 8XX-NXX-XXXX) and then entering a Company-provided account number plus a personal identification number (PIN) and the called telephone number.

The Company, by written notice to the Customer, may discontinue service to a Company Calling Card PIN if that PIN has not been used for a period of 120 days.

3.2.2 Call Timing

Calling Card Service is usage sensitive and billed in six (6) second increments with a minimum initial billing period of eighteen (18) seconds. The duration of each call will be rounded off to the nearest higher increment for billing purposes. Additional fractional cents will be rounded off to the nearest higher cent. Unless otherwise specified in this pricing guide, the duration of each call for bill purposes will be rounded off to the nearest higher increment.

3.2.3 Terms of Service

The rates for Calling Card Service are based on established one (1) year, two (2) year, or three (3) year term contracts for the Company's business Customers. Upon expiration of a term contract, the service term will automatically renew at the same terms and conditions for successive one (1) month terms unless either party notifies the other thirty (30) days prior to the expiration of the then current term that it wishes to terminate the service.

3.2.4 Calling Card Features

The following features are available:

- AudioText
- Message Store and Forward

A. Audiotext

Audiotext allows Customers to access news, weather, sports, financial news, and other fun features, by utilizing an Information Services Option available when dialing the special access number.

3.5 Intrastate Long Distance Service

3.5.1 Description

Intrastate Long Distance Service is available to Customers who subscribe to the Company's local exchange service at a minimum of one location. The Intrastate Long Distance Service Customer may select the Company for both intraLATA and interLATA calling, or for interLATA-only calling.

A qualified Customer may also subscribe to Intrastate Long Distance Service at other service locations not served by the Company's local exchange service through either the local exchange service provided by another local exchange company ("Switchless") or through a dedicated long distance facility. If the Customer discontinues their Company-provided local exchange services such that the only remaining service is the Switchless location or dedicated long distance facility, the Company reserves the right to discontinue the Switchless and/or dedicated long distance facility service after thirty (30) days advance notice to the Customer.

The Intrastate Long Distance Service Customer may select a usage tier based on estimated usage for locations served by the Company. If the Customer fails to meet the usage requirements for the estimated usage tier, the Company will reassign the Customer to an appropriate tier.

Optional Toll Free Service is offered to Customers at both Company-provided and Switchless locations.

3.5.2 Timing of Calls

Each Intrastate Long Distance Service call is billed in six (6) second increments after an initial minimum call duration of six (6) seconds. Partial increments are rounded up to the next full increment on a per call basis.

3.5.3 Special Access

When the Customer uses a dedicated trunk group for Intrastate Long Distance service that is not combined with local services provided by the Company, additional charges apply for the Special Access Facility as listed below.

3.5.4 Account Codes

Account Codes are available to Intrastate Long Distance Service Customers at rates listed below. Rates vary based on whether the Customer location is served by Company-provided local service.

SECTION 3 - SERVICE DESCRIPTION, (Cont'd.)

3.6 Bolt on Buckets (BOBs) Long Distance Rate Plans

3.6.1 Description

BOBs Long Distance Rate Plans are offered to new and renewing Customers of the Company's bundled packages of business line, trunk and ISDN services that include an initial toll usage allowance. The terms, conditions and rates for those services can be found in the local exchange price guides. This plan is restricted to Customers who have selected Company as their long distance toll provider of IntraLATA and InterLATA toll or InterLATA toll.

BOBs Long Distance Service applies both to inbound calls (i.e., calls originated via normal shared use facilities and terminated via the Customer's local exchange service access line) and outbound calls (i.e., calls originated by a Customer presubscribed to the Company's long distance service where the Customer dials 1+ the area code and number desired in order to complete the call). BOBs minutes are limited to domestic toll usage and exclude international, local, calling card and switchless traffic.

BOBs calls are billed in six (6) second increments with a minimum initial billing period of six (6) seconds.

The Customer may select BOBs of either 1000, 3000 or 5000 minute bundles for a flat monthly fee based on total estimated usage tiers. The Company reserves the right to reassign the Usage Tier for the Customer failing to meet usage tiers estimated volumes. The Customer may select any combination of bucket bundles. Usage beyond the minutes of use included in the bucket bundle will be billed at the BOB additional minute rate.

Unused minute may not be credited or carried over to the next month.

SECTION 4 – GRANDFATHERED SERVICES

4.1 TimeOut (1+Dialing) Service**

4.1.1 General Description

TimeOut (1+ Dialing) Service is limited to existing Customers as of October 15, 2001.

TimeOut (1+ Dialing) Service is an InterLATA long distance service that is usage rated and billed in six (6) second increments. Service is available to Customers over Company's switched or switchless access lines. No minimum volume commitment is required.

4.1.2 Timing of Calls

Long distance usage charges are based on actual usage. Chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when either party "hangs up" thereby releasing the network connection. If the called station hangs up, but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network. Chargeable time does not include time lost because of faults or defects in the connection.

The minimum call duration and rounding of calls for measurement and billing purposes is six seconds. The duration of each call will be rounded off to the nearest higher increment for billing purposes. Fractional cents will be rounded to the next higher cent.

4.1.3 Terms of Service

The rates for TimeOut (1+ Dialing) Service are based on established one (1) year two (2) year, or three (3) year term contracts for the Company's business Customers. The rates are further segregated between switched and switchless type service. Switchless service may be offered in a package with other services or by itself at a rate or discount offered on a contractual basis for services not generally available under this pricing guide. Rates will be offered to the Customer in writing and on a non-discriminatory basis. Contracts resulting from a special request will be submitted for approval and filed with the Commission. Upon expiration of a term contract, the service term will automatically renew at the same terms and conditions for successive one year terms unless either party notifies the other thirty (30) days prior to the expiration of the then current term that it wishes to terminate the service.

Note: Off-net provisioning will require additional mileage and/or back haul charges to be added.

**This service is limited to existing Customers as of October 15, 2001.

4.2 TimeCard (Calling Card) Service**

4.2.1 General Description

TimeCard (Calling Card) Service is limited to existing Customers as of October 15, 2001.

TimeCard (Calling Card) Service is provided to Customers for use when away from their established locations. The Company will issue to Customers Company Calling Cards which will allow Customers to place telephone calls and to re-originate calls, a feature which allows a Customer to place a new call without hanging-up and re-dialing the 8XX access number. Access to the service is gained by dialing a Company-designated toll free access number (i.e 8XX-NXX-XXXX) and then entering a Company-provided account number plus a personal identification number (PIN) and the called telephone number.

The Company, by written notice to the Customer, may discontinue service to a Company Calling Card PIN if that PIN has not been used for a period of 120 days.

4.2.2 Call Timing

TimeCard (Calling Card) Service is usage sensitive and billed in six (6) second increments. The duration of each call will be rounded off to the nearest higher increment for billing purposes. Additional fractional cents will be rounded off to the nearest higher cent. Unless otherwise specified in this pricing guide, the duration of each call for bill purposes will be rounded off to the nearest higher increment.

4.2.3 Terms of Service

The rates for TimeCard (Calling Card) service are based on established one (1) year, two (2) year, or three (3) year term contracts for the Company's business Customers. Upon expiration of a term contract, the service term will automatically renew at the same terms and conditions for successive one year terms unless either party notifies the other thirty (30) days prior to the expiration of the then current term that it wishes to terminate the service.
