**tw telecom Named Finalist for Prestigious  
2010 'Voice of the Customer' Award**

*- Top telecom provider in annual competition*

**DENVER** – July 6, 2010 – **tw telecom**, (NASDAQ: TWTC) a leading provider of managed voice, Internet and data networking solutions for businesses, today announced that it was named a finalist for Forrester Research's 2010 'Voice Of The Customer' Award. The award recognizes initiatives that enable companies to dramatically improve how they collect, interpret, and react to customer feedback.

**tw telecom** was named a finalist for its disciplined and strategic approach of continuously collecting and acting on customer feedback to improve the customer experience, increase loyalty and drive revenue growth. **tw telecom** was the only telecom provider named a finalist in the annual competition, and other finalists were Adobe, American Express, American Family Insurance, CDW, Ceridian, DELL, EMC, Fidelity Investments and USAA.

"We are honored to have been named a finalist by Forrester Research because it demonstrates the extent to which we have integrated customer feedback into all of our processes," said Lara Wise, vice president of Customer Experience for **tw telecom**. "At **tw telecom**, we have built our reputation on offering customers tremendous value and the highest levels of customer service. This award reflects that commitment."

**tw telecom's** customer care and operational focus has centered on a balance of customer satisfaction matched with the ease of doing business to drive customer loyalty. Specifically, the company has implemented a unique customer portal that drives local enterprise relationships with a national and local support structure to minimize downtime and enhance customer- company interaction.

**tw telecom** connects more commercial buildings to its fiber network than any other competitive communications provider. In fact, it has the third highest market share of retail business Ethernet ports in service. **tw telecom** integrates complex Ethernet and Converged IP VPN solutions and, with its own national fiber network and IP backbone, has the national capability, robust product portfolio and national/local customer care teams to support mission critical enterprise applications and to deliver the industry's most sought after customer experience.
